- Calculate the sire and dam by using the pivot chart function in each discipline.

-Confirm there are no duplicated or missing titles for each sire and dam (by using the pivot chart function if the sire or dam gained a title in the perspective year the added letters to their registered name will cause a second line entry.

-For all 50-60 winners, find all owners on each sire and dam and confirm membership of all owner and co-owners by using the find option on membership spreadsheet, then copying the members information and join date into your working totals spreadsheet. This will need to be repeated after the membership grace period is over as well.

-AKC will provided a report for all Duals at the end of the year. You will confirm all owners and co-owners of each dual are members upon receipt and enter their information into the spreadsheet. Verify membership again after the grace period mid-March. Then calculation the Sire and Dams with the pivot Chart.

-Jrs of the Year are calculated by using the Canine Chronical year end Stats

-Dogs of the year are calculated Biannually, you will contact the respective members (see below) for the year's winners, then confirm membership post grace period for each owner and co-owner. Calculations are done by:

- Show Dog of the Year (Awards Chair)
